TOWARD UNITY IN UNIFICATION

Defense Secretary Forrestal has ordered the three
armed services to thrash out their differences on legisla-
tion in his office instead of running to Congress with them.
That's a great idea if he can make it work, and should do
a lot to bring more real unity into the unification program.But nothing in the Forrestal order prevents a con-
gressional committee from subpoenaing an officer of any
of the three branches to testify in favor of a pet theory
which he shares with a committee member. We hope, then,
that Congress will go along with the excellent spirit of the
secretary's decision and help to advance the idea that a
better national defense, not the promotion of one service,
is the goal and purpose of unification.The Chinese celebrate New Year's
day on both Jan. 1 and Jan. 24.Negroes operate more than 25,700
retail stores in the United States.Snow contains so much air that
animals hibernate beneath it and
men have been buried in drifts for
two full days and lived.

PHILIPPINES RUSH SCHOOLS
TO GET DOLLARSManila — (P)—To win a race
against time, with millions of U. S.
dollars at stake, the Philippines
government has decided to build
3,500 rural schools instead of a new
capital.The U. S. Congress in 1946 author-
ized \$120,000,000 to restore war-
wrecked public property, but fixed
a deadline of June 30, 1950. The
Philippines allocated \$12,500,000 of
this for a new capital at Quezon
City, but engineers now have esti-
mated that it will require at least
five years to build it.To avoid the risk of losing the
money, the Philippines administra-
tion now has decided to use \$1,000-
000 for capital planning, \$5,000,000
to repair other government build-
ings, and the remaining \$6,500,000
for small frame schools, which can
be erected speedily.

A Cabinet For
Any CrisisNew York — (P)—President Tru-
man is finding no shortage of vol-
unteer carpenters in his task of
building his 1949 cabinet.Everybody is lumbering up with a
new idea. If all who have been sug-
gested for a place were included,
the cabinet would have to have
more posts than a fence around
Texas.Jest in fun, Editor and Publisher
magazine of the press, nominated
a formidable cabinet composed en-
tirely of newspapermen.And Eric Johnston, president of
the Motion Picture Producers Asso-
ciation, more seriously advanced the
thought that America's top labor
leaders should be chosen for key
diplomatic jobs abroad.This idea is fascinating. If it is
carried out, my nominee for am-
bassador to England is John L. Lew-
is. His \$50,000 salary and \$25,000 ex-
pense account give him the neces-
sary financial background.And what an impressive figure old
John would make at the Court of
St. James—with his florid Shake-
spearian oratory, his ponderous, elo-
quent eyebrows. In knee breeches
and silk hose he would be unforget-
table. The Labor government of
England would have to sit up and
listen to a man who won a \$100 a
month pension for American coal
miners.Era Of Experiment
Perhaps it is time we widened the
whole base on which government
leaders are appointed—and include
men and women from all classes. It
is an essence of the Democratic be-
lief that people grow with responsi-
bility.And this is an era of experiment
anyway. The nation's foreign policy
of seeking world peace is largely
being carried out by professional
military men even as, paradoxically,
gentle scientists are researching the
weapons for a possible third world
war.Just for a starter, I have compiled
a tentative list of appointees, which
is being forwarded to Key West by
the next passenger pigeon that flies
this way. Here it is:For Secretary of Agriculture—Mil-
ton Berle, who has run the price
of corn up to the highest peak in
history. Or Fred Allen, who gets
about as much for chaff.Secretary of Labor—Tommy Man-
ville, who makes work out of play.
Secretary of the Interior—Sher-
man Billingsley of the Stork Club,
who has made a career out of sat-
isfying the inner man.Secretary of the Treasury—Bern-
ard Baruch, because in crowded
Washington his fondness for a park
bench would save office space. Al-
ternate choice: Jack Benny, who
spends a dime finger by finger.Secretary of Defense—Greta Gar-
bo. She keeps her barriers high.
Attorney General—Some good bar-
tender. He'll never drop a case.Postmaster General—Lana Turner.
Everybody would love to play post-
office with her.Secretary of State—Barbara Hut-
ton. As chief of foreign affairs, she'd
have the experience to keep us out
of entangling alliances.And for U. S. representative to the
United Nations, nobody but that arch
diplomat of the diamond—Leo Duro-
cher. Whenever Vishinsky rose to
voice his perennial charge that the
U. S. is trying to build an empire,
Leo would have his answer ready:
"Who wants an empire? Not us.
No empire was ever any good."With a team like that America
could never strike out.ard Baruch, because in crowded

When preparations for a memorial were started recently relatives sent in the names of four presumed victims. The Home Office ordered an inquest. Hillsdale Gridders Have Potent Attack

Hillsdale, Mich., Nov. 9.—Bill Young and Bob Hallock continued to be the top ground gainers for Hillsdale college following the Bearcats' 13-13 tie with the Kalamazoo Hornets.

Young rushed 10 times against the Hornets for 59 yards to bring his total for the season to 392 yards and a 4.6 yard average. In the air, Young has clicked on 15 of 35 passes for 332 yards. One pass netted a touchdown. He has returned 18 punts for 482 yards, and four for touchdowns. Young has three pass interceptions, and turned one into a score.

Best In Michigan

His point total this season puts him on top of the state standing with 80 points on 10 touchdowns and 20 extra points.

Hallock worked the ball 11 times against Kalamazoo and boosted his rushing total to an even 400 yards in 67 tries for a 5.9 yard average.

Tom Ward, back in the Hillsdale lineup for the first time since he suffered a broken hand in the Alma game, netted 64 yards in 10 tries against the Hornets to make his average 6.4 on 197 yards in 31 tries.

Hillsdale has gained 1,692 yards in 358 tries for a 4.7 term average. Opponents have averaged only 3.2 against the Bearcats—676 yards in 271 tries.

Passing Not As Strong

The Bearcats have thrown 89 passes, completing 39 for 772 yards. They have yielded 764 yards to op-

Top Defense, Best Offense Matched In Big 9 Game

Chicago, Nov. 16.—(P)—Unbeaten Michigan's closing swipe for its second straight Big Nine title and perfect season Saturday will pit the Wolverines, the conference's top defensive team, against the best offensive club, Ohio State's Buckeyes.

Official league statistics today disclosed that Ohio with a feeble chance for a Rose Bowl bid will take a crushing running attack averaging 228.8 yards per game against a Michigan defense which has yielded only a 58.2 opponent land average.

Figures Tricky

Figures are tricky, but the Buckeye showdown at Columbus has a statistical aspect which indicates a closer scrap than anticipated.

Although Michigan has a record-breaking five-game pass average of 158 yards against Ohio State's 89.6, the Wolverines have yielded 143.6 per game to enemy aerials, while the Bucks have permitted only 56.6. Michigan's pass yield tops its own 1942 mark of 139.6.

However, on average scoring Michigan is ahead, a record-setting 35.4 points to 19.8.

The Buckeyes, with 228.8 yards by rushing and 89.6 passing, have the league's best overall offensive average of 318.4 compared with Michigan's third-place combined total of 305.

Second is Minnesota, also still a Rose Bowl contender, with a six-game average of 316.5. Also still a game average of 316.5.

Northwestern Vs. Illinois
In Northwestern's quest for a clincher on the Rose Bowl bid against Illinois Saturday, the Wildcats haul a fifth-spot offensive average of 258.2 and fourth best defensive showing, a 217.4 yield against an Illinois team ranked seventh both offensively (213.8) and defensively (282.8).

The Illinois, behind Dike Eddleman's brilliant 43-yard average, are headed toward a conference punting record with a 42.9 pace. Eddleman has punted all but once for Illinois in six games.

Two other league marks are menaced. Indiana may come up with the fewest running plays per game, now averaging only 30.2. Ohio State can achieve the dubious distinction of averaging the most penalties per game during a season, currently incurring 6.2 a contest.

GRAIN PRICES ARE ONE CENT HIGHER
Chicago, Nov. 16.—(P)—Gains of a cent or more were marked up on grains in today's Board of Trade session. Commission houses and brokers representing commercial interest were active buyers.

Traders said most of the offerings came from profit cashing which was readily absorbed. Wheat was in demand from the opening. Light country offerings were a factor in the trading. Traders had reports of new bookings of family flour on a broad scale.

The spot corn market was higher and to arrive bookings were placed at 80,000 bushels.

Soybeans were also in demand, but hard to follow the trend of other futures.

Receipts were: wheat 1 car, corn 278, oats 16, soybeans 8.

At the close wheat was 1 1/2 to 2 1/2 cents higher than yesterday's close, December \$2.36 1/2, corn was 1 cent to 1 1/2 higher, December \$1.43 1/2, oats were 1 to 1 1/2 higher, December \$1.13 1/2, soybeans were 1 1/2 to 4 1/2 higher, November \$2.68. Lard was 2 cents to 2 1/2 cents a hundredweight lower, November \$18.70-75.

Illini Grid Fray Key To Rose Bowl For Northwestern

Chicago, Nov. 16.—(P)—Illinois positively presented Northwestern with a couple of genuine roses today—just a gag, of course, since the Illini have no intention of being a door-mat to a Wildcat march into the Rose Bowl.

The two teams face at Northwestern Saturday in the key game of the Big Nine's bowl squabble. The 'Cats must win to clinch a Pasadena bid.

The two blooms were graciously laid before Northwestern Coach Bob Voight by Illinois Publicist Charles Flynn at the weekly Chicago football writers meeting.

Voights, equally gracious, told Flynn he hoped the live roses meant something and then very broadly hinted he thought the Illini would turn out to be Indian givers come Saturday afternoon.

"Illinois has been concentrating on this game," Voights asserted. "They played Ohio State (and lost, 34-7) last Saturday, but for two weeks, 'Beat Northwestern' signs have been plastered around the Illinois dressing room."

Scout Waldo Fisher of Northwestern worried in the same vein.

"Illinois was down psychologically against Ohio State," said Fisher. "It will be an up team against us, that you count on. They have a good passing attack and sharpness in the line. A team that lost by only one touchdown to both Michigan and Army certainly can cause anybody trouble."

Wildcats In Fine Shape

Voights admitted that his Wildcats emerged from their routing 12-7 loss to Notre Dame in fine mental, if not physical, fettle. Tackle Steve Sawle, Guard Ben Daniel and End Chuck Hagmann received injuries against the Irish which probably will bench them Saturday.

"For the first time this season," he was letting the players think about the Rose Bowl," said Voights. "They know if they beat Illinois they have an excellent chance to get into the bowl. They'll have terrific incentive in Saturday's game."

(Northwestern can clinch second place by beating Illinois and if Ohio State should upset undefeated Michigan—banned from a bowl return—the Wildcats would share the Big Nine title with the Wolverines.)

Voights said he was extremely pleased by Northwestern's showing against Notre Dame. He was particularly impressed, he said, by the fact the Wildcats did not wilt late in the game like most Notre Dame victims.

DRIVING RAIN SENDS WISCONSIN INSIDE

Madison, Wis., Nov. 16.—(P)—Wisconsin's football squad took it easy today—but not because Coach Harry Stuhldreher wanted it that way.

A driving rain forced the Badgers into the field house for their first indoor workout of the year—and then the lights blew out bringing an early end to the drill.

In the short time they worked the gridgers ran through offensive assignments for the finale against Minnesota here Saturday.

Hillsdale Touchdown Twins

Hillsdale college's "Touchdown Twins," Halfback Bill Young, left, and Tom Ward, right, will be in action together for the last time when Hillsdale college faces Illinois College at Hillsdale Saturday.

Ward led Michigan in scoring in 1947 with 108 points on 18 touchdowns. This season, Young is the leading point getter, and is far ahead of his next rival in Michigan. Ward graduates next June, while Young has one more season of eligibility.

Football Season Ends Turkey Day

Springfield, Ill., Nov. 16.—(P)—Thanksgiving Day games will settle three downstate high school football title races still undecided—the Big Eight, Southwestern and South Central Conferences.

Besides the Big Eight flag, a perfect season record hinges on the outcome of unstop West Aurora's collision with East Aurora.

A match pairing East St. Louis and Belleville will name the Southwestern winner. A victory or tie would nail down pennants for West Aurora or East St. Louis, each out in front in its loop. Their opponents need triumphs to emerge on top.

The South Central title bout sends Gillespie to Carlinville. Both are unbeaten and untied in league play.

Arenzville Beats Chandlerville 5-36-32 Tuesday

Arenzville—Coach Jack Escoria's youthful Arenzville Raiders opened the 1948-49 campaign with a victory here Tuesday night, disposing of Chandlerville 36-32.

The Raiders trailed all the way until the fourth quarter, when they came from behind to take the victory.

Last year's Arenzville team was undefeated until Waverly Scotties took an exciting win in regional tournament semi-final play at Virginia. This year's club faces a tough schedule without the aid of many of last year's standouts.

Don Wessler, Escoria's towering veteran center, took scoring honors with 17 points. Taylor and Marcy were high for the losers with eight each.

Michigan State One Of Best Offensive Clubs

New York, Nov. 16.—(P)—Belatedly, it becomes apparent that the Michigan State Spartans, 1948 model, are one of the nation's great offensive football units.

Two weeks ago Coach Biggie Munn's lads were not ranked among the top 20 attacking powers in statistics prepared by the National Collegiate Athletic Bureau.

Last week they popped up in eighth place, and this week they are fourth in total offense, right on the heels of Nevada, Army and Notre Dame. They are second only to Nevada in scoring, with 298 points.

6.10 Per Play

State's full season average gain per rushing play is 6.10 yards—the nation's best—and its average both for running and passing is 6.53, second only to Nevada's 6.93.

It cannot be said, either, that the Spartans have compiled this dazzling record against pop-overs. Three of their first five opponents were contenders for the national title—Michigan (7-13), Notre Dame (7-26) and Penn State (14-14).

Since they came out of that alive, the Spartans have been terrific. Through their last three games against Oregon State, Marquette and Iowa State they have maintained a tremendous offensive average of 51.3 yards per contest.

Nevada Seeks Record

All this, however, is not going to be good enough to knock little Nevada out of the national ground-gaining title before the season ends. The Wolfpack is idle this week, but needs only 287 yards in its final all-time record average of 46.7 yards per game set by Army in 1945.

In wallowing Fresno State last Saturday the Reno aerialists completed 11 of 19 passes for 157 yards and three touchdowns, thereby setting two new national records—25 scoring passes in a season and 2,151 yards gained by passes.

Southern Methodist's 16th scoring pass of the campaign—in the final seconds of Saturday's victory over Arkansas—kept the Mustangs ahead of all except Nevada in touchdown aerials.

The Dallas eleven has completed 63 per cent of its tosses and is threatening the record of 60.7 set by Alabama's 1945 team. Michigan is third in touchdown pitches with 15, the same number the Wolverines' great aerial arm produced in nine games last season.

Army, though slowed down considerably by Penn last week, still leads the show in rushing offense with an average gain of 34.4 yards per game. Texas Mines is second, 33.7 yards, and Notre Dame third, 32.4.

Chapin Cagers Open With Win Over Bluffs 5

Chapin—Chapin cagers gave their new coach, Paul Blakeman, a fine start on his career here by beating Bluffs 5-0 in a non-conference game Tuesday night.

The Chapin team led all the way in opening their campaign with a win. The defeat was the second straight for the Bluffs, who yielded to Meredosia last Friday.

Bonds, Chapin forward, was the big gun in the attack, netting 22 points.

While the host club held Bluffs to only four field goals, Chapin did most of its scoring on longer shots, showing an inability to connect from the free throw line. The winners missed 22 tosses in 26 tries.

Michigan Eleven Fears Passing Of Ohio State

Ann Arbor, Mich., Nov. 16.—(P)—Heeding Scout Ernie McCoy's warning about Ohio State's dangerous passing attack, Coach Bennie Oosterbaan put his Michigan football team through a rugged session at pass defense today.

McCoy warned the Wolverines that in Pander Savio Ohio State has "the best passer we've run up against since Norm Van Brocklin of Oregon."

Van Brocklin passed Michigan dizzy in the second game of the season but the Wolverines won 14 to 0. Michigan's aerial defense has been weak all season.

Sweet potato crop of 1946 was estimated at 66,807,000 bushels.

Credit Oosterbaan's Success At Michigan To 'Easy' Coaching

Ann Arbor, Mich., Nov. 16.—(P)—Bennie G. Oosterbaan, Michigan's new "relaxed and lazy" football coach, stands today just one game away from duplicating the perfect season of his predecessor, Athletic Director Fritz Crisler.

But their methods are miles apart. The 42-year-old three-time All-America star has done away with

the time-honored football coaching system of driving and firing up the players, so closely applied by Crisler.

In its place, he has substituted a friendly, kidding, faith-in-the-man approach.

Ohio Will Be Hot
With an aroused and highly-regarded Ohio State club barring the path to Michigan's 23rd consecutive victory, Oosterbaan says:

"They'll be red hot and higher than kites. We'll have to reach the same heights if we're to beat them."

That much goes down well with the coaching staff here. Yet they despair when he adds, "but then we've got no reason to believe our boys can't rise to the occasion. What-ever happens, it'll be a great game. It'll be wonderful."

There were plenty of doubters when Oosterbaan took over after Crisler fashioned an unbeaten 1947 season and climaxed it with a smashing Rose Bowl triumph.

Doubts Grow
And the doubts grew when he kidded the maize and blue gridgers for their errors in practice, joshed them along. And when Michigan squeezed by Michigan State college in the season opener, remarks were heard about the coach who didn't even give the kids a pep talk at half time.

Pointing out strength and weakness in suggesting improvements at the intermission is no way to win a ball game, they said. Kids have got to be fired up.

"Those kids know the score as well as I do," was Oosterbaan's reaction. Doubters fell by the wayside with every succeeding victory, until now the coach, who grew from an athletic great in 1925-26-27 to Michigan's great sports legend, has a host of followers.

Buckeyes Survive Illinois Contest In Good Shape

Columbus, O., Nov. 16.—(P)—Ohio State university's Buckeyes, steaming up for their big game against Michigan Saturday, put in a light, fast drill today.

Coach Wesley Fesler said it was supposed to be just enough to keep them in trim without risk of injury. The team came through the Illinois game at Champaign last Saturday without a serious scratch.

With the freshmen team backs throwing Michigan style, the varsity practiced pass defense. First stringers then worked on their own passing attack.

Bluejay Mentor Faces Rebuilding Task This Season

Bluffs—Only three lettermen are back at Bluffs high school this season and Coach James Goodin faces another tough rebuilding task. The Bluejay squad will be loaded with underclassmen, if their prospective roster forms an indication.

The Blue and White cagers opened a card of 17 games and two turnouts against Meredosia last Friday.

Returning lettermen for the P.M.B.C. conference entry are Kenneth Hutton, Wayne Buhlig and Harold Edlen.

Walter Deterding, Jack Baldwin, Wilbur Mathews, Russell Collision and Vernon Cockerill are the only other upperclassmen left, and they are all juniors. In fact, Hutton is the only senior on the outfit.

Underclass prospects include Robert Masterson, Gerald Hoots, Jack Welch, Stanley Baulos, James Griffin, Eddie James, Tony Evans and Jack Barnett.

Nov. 19—At Griggsville.

Windstorm Wrecks Showroom Glass; New Car Damaged

A sudden and terrific windstorm combined with a pelting sheet of rain and hail about 2 p.m. Tuesday to completely demolish eight (8x10 ft.) glass window panes at the Ray Eldridge Motor company, located at 1010 North Main street. The glass, which showered into the showroom following a particularly strong blast of wind, is said to have inflicted considerable damage on a new \$4,000 Lincoln Cosmopolitan automobile placed there on display.

Bert Crow, bookkeeper at the company, was arranging a display of anti-freeze a few feet from the pane of glass on the south side of the building when the storm hit. He jumped back into the room as the glass crashed and fell largely into the driveway immediately outside. A few moments later a second crash, this time on the north side of the building, revealed the destruction of six additional panes, fragments of which showered into the show room and over the automobile.

Damage inflicted upon the car and the windows, both of which were insured, was estimated at \$1,500.

Most Jobless Pay Fraud Trials End In Guilty Verdict

Guilty verdicts were returned against 418 of the 419 persons prosecuted for unemployment compensation fraud by the Division of Unemployment Compensation during the 22 months ended October 30, 1948, Commissioner Samuel C. Bernstein reported today. Jail sentences or fines or both were imposed in addition to full restitution of all monies fraudulently received.

"Besides the 419 cases actually brought to court trial, 78 await trial and 466 are being made ready for prosecution under the Illinois Unemployment Compensation law. The commission of fraud in connection with the claims for unemployment compensation carries a possible fine of \$200 or imprisonment for six months, or both, for each offense," Commissioner Bernstein said.

Prosecution Last Step

"Ordinarily, criminal prosecution is pressed only when calculated and willful intent to get or attempt to get unemployment benefits to which the claimant is not entitled can be proved beyond reasonable doubt," Bernstein added. "Constant vigilance had been maintained to detect and prevent fraud and a big majority of such cases are disposed of before reaching the step where criminal prosecution is necessary."

"During the period under review, 3,819 suspected fraud cases were investigated by the Division's Special Investigations Unit, evidence of fraud being found in 3,032," Bernstein said. "All of these were disposed of either by restitution, or restitution and prosecution. Of the total investigations referred to, 3,399 resulted from evidence uncovered by controls within the Division of Unemployment Compensation, 376 were initiated on information supplied by the general public, and 42 were originally reported by employers."

In addition to the action resulting from the 3,819 fraud investigations, the claims of 183,374 persons were denied during the 22-month period referred to for the following reasons:

Voluntary Quit, 23,127; Misconduct on Job, 12,110; Refusal of Suitable Job, 17,443; Inability to work or Unavailability for work, 99,981; Labor Disputes, 30,713.

Fraud under the Illinois Unemployment Compensation law may be committed by the giving of false information or by the withholding of pertinent facts regarding a claim for benefits. Illinois law requires that a claimant for unemployment compensation be, through no fault of his own, totally unemployed in the week for which he claims benefits, or partially unemployed and have earnings of less than his weekly benefit amount. He must be registered for work with the Illinois State Employment Service and show that he is actively seeking work by his own efforts. He must be able to work and be available to accept any suitable job offered.

Dr. Drennan Pays Honor To Pioneer American Nurse

Dr. George L. Drennan paid tribute to Linda Richards, America's first professional nurse, Tuesday morning at a Jacksonville high school assembly, sponsored by the Future Nurses club of the school.

Speaking of "America's Florence Nightingale," Dr. Drennan said that "Linda Richards was a pioneer who blazed a pathway for a great advance in the art and science of caring for the sick."

He went on to point out the "important transformation of the nursing profession" from Linda Richards' birth in 1841 to the present time.

First In Country Jacksonville's Future Nurses club, which was organized about a year ago, was the first such club in the country and was recognized last year at the annual meeting of the nurses association at Chicago. Since that time it has been adopted as a program for all nursing associations.

The club, sponsored by Miss Ethel Swanson, school nurse, is made up of 21 junior and senior girls, and is headed by Ernestine Grissom, president, and Retha Retzer, secretary.

Other Members

Other members are Faustina Grissom, Joyce Goodey, Donna Steel, Mary Steel, Alice Matthews, Nancy Bursell, Phyllis Pate, Phyllis Pearson, Carlotta Horner, Roberta Mendendorff, Fredricka Branner, Betty Summers, Irene Hall, Frances Watkins, Merna Dickerson, Mabel Hoots, Agnes Mundy, Mary Lou Charlesworth and Margaret Wilson.

Dr. Drennan, proud of the club's record of achievement, feels that "the future nurses club is one of the most valuable helps that the girls of high school can have. If not only prepares them for the nursing profession, it makes them better prepared to make a home."

Jail Father For Beating Son

Detroit, Nov. 16.—(P)—A father was held by police today because his 13-year-old son said he was "getting too big now" to be beaten and chained to his bed.

The boy, Carl Russo, told police his father had chained him to his bed and beaten him periodically since he was six years old.

The last occasion was Friday when he came home late from a movie, the boy said. When he was released today, he went to the police.

"I'm afraid to go back near him no matter what the police do," the boy said in a statement to the prosecutor. "I don't know what I can do or where I can go now."

Couple Have Each Other Arrested

Pittsburgh, Nov. 16.—(P)—All was happiness in the Pettacia family tonight—a 15-year-old child bride was playing cards with her 20-year-old husband, Mario.

Last night the couple—married three months—went to jail. It was "just one of those things—a little argument," said Mario.

With his pretty little bride standing at his side, Mario told this story today to Magistrate W. H. K. McDermid.

"I was reading the sports section of the paper, Ida wanted to play cards. We had a big argument. We're both stubborn and threatened to have each other arrested."

With that, they both agreed. They walked to the police station, each assuming the other would "back down on the dare."

But neither did. The police had no recourse—they locked them both up on disorderly conduct charges.

"This sounds silly now, but it didn't last night," Ida told the magistrate. "I'm sorry now. I still love him."

Mario's face lighted up and he kissed his bride. The magistrate said "case discharged," grinned and said: "Young man, when your wife wants to play cards—play cards! She's the boss around the house."

QUESTIONS AND ANSWERS ON SERVICE TO VETERANS

(This is another in a series of questions and answers regarding the rights of ex-servicemen and their families, and answered by Keith C. Peabody, Veterans Employment Representative, Illinois State Employment Service, 211 East Morgan Street, Jacksonville, Illinois. For further information, contact Mr. Peabody. In this series, the ISES attempts to answer questions most frequently asked by ex-servicemen and women.)

824. Question: May a veteran be transferred from a state hospital to a veterans hospital?

Answer: Yes, if formal application is made and a bed is available there is no legal bar. Beds are made available if condition is service connected.

825. Question: I'm a veteran of W. W. II and have a service connected disability. I would like to know of the V.A. will pay my doctor if I go to him for examination to determine whether I need hospital treatment or domiciliary care for my W. W. II ailment.

Answer: The V.A. will pay the cost of examination by a private physician only if it has given the physician prior authority to make such an examination.

826. Question: I contacted malaria while in the Pacific area... and seem to have so many relapses that I'm wondering if there are any of the veterans who contacted malaria while overseas during W. W. II who have been cured. And are there many relapses in most cases?

Answer: Veterans Administration statistics indicate that within the next few years, the problem of relapse from war-acquired malaria will be an insignificant one and the rate of cure is likely encouraging.

During June 1947 approximately 130,000 veterans were receiving compensation for service-incurred malaria. Nine months later, the number dropped to 32,000 and it is still declining. The number of relapses likewise has declined from approximately 100,000 cases infected during the war to less than 10,000 at present. The parasite "burns itself out" in human bodies in from one to three years, although in some cases infections are known to have remained for as long as 20 years.
